ABET LAMINATI 

Unlimited selection

Strategic Partnership

Abet Laminati has forged a strategic partnership with JP Corry to distribute its High Pressure Laminate (HPL) ranges in Northern Ireland and the Republic of Ireland. Established in 1814, JP Corry is one of Ireland's best known companies and a leading supplier of building products with a network of 18 branches spread throughout the country.

Both companies have a strong environmental ethos and consideration to environmental and manufacturing impact. JP Corry is both FSC and PEFC Chain of Custody certified and Abet Laminati, with its stringent environmental policy and ISO 14001 certification, is a perfect fit.

JP Corry is supplying many of Abet Laminati's Labgrade, Cubicle and Diverse collections ex-stock with other finishes and ranges available to order.

The Labgrade collection comprises a wide selection of finishes with a 16mm solid black core offering a chemical resistant decorative High Pressure Laminate finish. This creates a hardwearing durable and

attractive solution for use in sterile and hygienic environments. Labgrade is available in a larger sheet size of 3660 x 1610mm in a SEI finish texture.

Abet Laminati's Cubicles Collection is an extensive range of hardwearing, durable and very attractive solutions for most cubicle, partition and locker applications with excellent resistance to impact, scratches and abrasion. These are offered in a 0.8mm postforming grade and 12mm compact grade in different sheet sizes ranging from 3660 x 1610mm to 4200 x 1860mm.

Diverse is a dedicated collection of bright and bold plain colours

along with marble, woodgrain and leather effect finishes. The laminates are available in 0.8mm postforming grade in a standard sheet size of 3050 x 1300mm with a variety of textures.

Other laminates from Abet Laminati are also available through JP Corry. These include a wide variety of colours and textures, patterned finishes and a selection of real wood finishes - such as HR LAQ pictured on the front cover in use at Pizza Express, Richmond and designed by AB Rogers. John Woodham, General Manager of Abet Ltd, comments, "We are delighted to have linked up with JP Corry, an expert in the supply of building materials. Furthermore, with both companies having a similar philosophy with regard to quality, design and careful

environmental consideration, there is a perfect synergy and we look forward to seeing some stunning schemes coming to life."

Samples and technical literature about Labgrade, Cubicles, Diverse and other laminates in the Abet Laminati collections, are available on our website at www.abet.ie

About Abet Laminati

ABET Ltd was established in 1981 and is the UK & Ireland branch of Abet Laminati. The company has an extensive warehouse and offices in London's Docklands.

Abet Laminati is one of the world's leading manufacturers of decorative laminate. From 1957, the company has grown rapidly. The prestigious awards obtained in recent years such as the "Compasso d'Oro" in 1987, the European Design Award in 1990 and the "Compasso d'Oro alla Carriera" in 2001, attest to the goals reached by the company whose commercial network is now very broad. This includes 7 subsidiaries which operate in Italy plus 13 commercial companies and agencies in over 90 countries.

The output from their two factories

exceeds 220,000 sq metres each day making Abet Laminati Europe's largest manufacturer of high pressure laminates.

Abet Laminati has always focused strongly on creativity and innovation in laminate manufacture. It is this design-led approach, coupled to strong links with the best Italian and International designers, that enables Abet to offer such a diverse range of laminates and such a comprehensive range of colours, styles and textures.

Abet Laminati has carried out extensive research to develop the technique for digital printing into laminate.

ABET Ltd is proud to be a member of NBS Plus to facilitate the accurate specification of our products. More details can be found on the website.

Abet Laminati has a strict environmental policy and is certified to EN 14001. A copy of the company's environmental statement can be found on the website.
